

The Woodcock-Muñoz Foundation

RESEARCH BRIEF

THESIS ABSTRACT

Comparison of the Reading Subtests of the Woodcock Johnson Tests of Achievement-Third Edition and the Wechsler Individual Achievement Test-Second Edition

Bruce A. Crum
Marshall University

The Woodcock-Muñoz Foundation (WMF) is a private non-profit operating foundation that supports the advancement of contemporary cognitive assessment practices. The Doctoral Dissertation Abstract Project is part of the Foundation's efforts to disseminate research findings that bridge the theory-to-practice gap in cognitive assessment.

Abstract

A comparison of the reading subtests of the Woodcock-Johnson, Third Edition and the Wechsler Individual Achievement Test, Second Edition using 49 subjects. A t test of significance and the Pearson R Correlations were computed to compare the scores. The purpose of the study is to determine how closely the two tests measure the same reading skills.
